## REQUEST FOR RECONSIDERATION OF PETITION UNDER CFR 1.137

ATTN: Derek L. Woods, Petitions attorney

**RECEIVED**

JUN 3 0 2004

**OFFICE OF PETITIONS****RECEIVED**  
CENTRAL FAX CENTER  
JUN 24 2004

Application : 09/988,475  
Inventor : Savard and als  
Filing date : 11/20/2001  
Examiner : Kovacs, Arpad F.  
Title : **MANEUVERABLE AND ADJUSTABLE LAWN  
MOWER HAVING AN EDGING-TRIMMING UNIT**

Dear Mr. Wood,

Thank you for taking the time to speak with me today concerning the major problem on behalf of the three inventors in distress mention above, knowing your busy schedule and the numerous files on your desk!

We also realize that a lot of people use all kinds of excuses to get where they want to get in life, but I can assure you that we don't work that way, I believe in doing the job right the first time, it saves a lot of time and energy to all of us.  
I really appreciate your concern and reconsideration in this special case.

This is the information that we had available on the USPTO website at the time.  
<http://www1.uspto.gov/emergencyalerts/faxnotice.htm>  
Shows that the fax numbers or is TC 3700 is 703-872-9302 (see exhibit « A »)

The same website also shows the fax number 703-872-9326 to be valid although by mistake, misdirected or misplaced. Based on the four identifications elements provided, namely, the application number, the name of the inventor, the filing date and the examiner's name, could have rerouted the documents to the proper department, unfortunately, you never got it, or it never reached the right person.

The fax number is and as is shown in exhibit A an official USPTO fax number directed at TC 3600. Additional proof is in an official USPTO fax receipt (see exhibit « B »).  
This fax number was given by Examiner: Kovacs, Arpad F himself by telephone conversation.

Unfortunately, there was an error of fax numbers, and the USPTO being the official government agency would understand that, those documents were sent to the wrong department, although it had proper information's and tracking numbers that identify clearly the destination of the file mention above. Throughout this entire process, we have, to the best of our knowledge and abilities followed up with our pending case.

Since there are three inventors on this application, it is not always easy to gain consensus on the procedures to follow nor is it easy to understand correspondence coming from legal terminology for inventors of basic background.

We thank you in advance for your understanding and your cooperation in this matter. Should you have any query in this matter, please do not hesitate to contact me.

Sincerely Yours,

Jeanne Morin  
Vice President

Enclosed you will find the documents that you requested.

Applicant hopes that he has responded to the Office Action in an appropriate manner.

Applicant believes that the new sets of claims should be allowed as they clearly define the invention over the prior art. However, if necessary, Applicant

### Requests For Constructive Assistance

The undersigned has made a diligent effort to amend the claims of this application so that they define obvious structure because it produces new and unexpected results. If for any reasons the claims of this application are not believed to be in full condition for allowance, applicant respectfully requests the constructive assistance and suggestions of the Examiner in drafting one or more claims pursuant to MPEP 717.07(j) or in making constructive suggestions pursuant to MPEP 706.03(d) in order that this application can be placed in allowable condition as soon as possible and without the need for further proceedings.

Very Respectfully,

*George Savard*
